## Liner Hanger Systems Tieback Equipment

### SN-AT Packer w/ LG Receptacle

The TIW® SN-AT Packer with LG Receptacle is a close clearance packer designed to provide a high pressure seal at the top of a cemented or uncemented liner. The LG Receptacle is provided for a future tieback. The SN-AT w/ LG Receptacle is run on drill pipe and/or casing, and it lands in the receptacle at the top of the liner. The unitized tieback stem on the SN-AT Packer is provided with Viton-Armid® chevron seals backed up by Teflon® or Ryton® rings for severe pressure applications.

#### Features

- Close clearance packer
- Provides a high pressure seal at liner top
- Provides an LG Receptacle for future tieback
- Set mechanically
- Uses Viton-Armid chevron seals backed up by Teflon or Ryton rings for severe pressure applications
- Available in a standard length of 10 feet with optional lengths of 15 or 20 feet
