## Liner Hanger Systems Setting Collar

### Type C Setting Collar w/ RPOB Profile

The TIW® Type C Setting Collar with C-Clutch and RPOB profile is designed to be used with rotating and/or right-hand set liner assemblies. It combines the proven performance of a basic liner releasing collar with a C-Clutch for liner rotation, a profile to receive the retrievable packoff bushing and a high pressure receptacle for future liner extension.

#### Features

- Setting collar incorporates a basic releasing collar and a C-Clutch to allow the liner to be rotated and/or to be used with right-hand set liner hangers
- Polished receptacle ID is larger than the liner ID, providing for full opening liner tieback
- The receptacle polished bore is available in a standard length of 10 feet with optional lengths of 15 or 20 feet
